## How Do We Book?

Booking your wedding photography with us is simple and stress-free! Once you've explored our work and pricing online, just click the booking link on our website and follow the easy steps. You'll receive email updates to guide you through the process.

### Simple & Stress-Free Wedding Photography Payments

We know weddings come with a lot of expenses, so we've made our payment process flexible and easy!

**Lock in your date with just \$500** – This non-refundable retainer secures your special day on our calendar and goes toward your total package price.

**Spread out your payments** – No need to pay everything upfront! The remaining balance (minus the final \$500) is due one week before your wedding, so you can focus on celebrating.

**Enjoy first, pay later** – The last \$500 is due within two weeks after your wedding, giving you time to soak in the magic of your big day. Just remember, no images will be released until the final payment is received.

This structure keeps things stress-free and ensures you can focus on what really matters—marrying the love of your life while we capture every unforgettable moment!

Eg of Wedding Basic package \$2500

\$500 non-refundable retainer to secure your special day.

\$1500 to be paid off 7 days before your wedding. (this can be 1 payment or broken down into monthly payments)

\$500 final payment due 14 days after your wedding day. (most couples use the cash from their wishing well to cover this)

### Prepay and Save

Pay the full retainer and balance at the time of booking, and we'll give you 2 extra hours coverage. Once your retainer is received, we'll email you an invoice for the balance. You'll have 24 hours to make the payment. After that, the package reverts to the regular included hours, and your payment plan will default to Option 1.

## Let's Plan Together!

A couple of months before your wedding, we'll invite you to sit down with us (either in person or virtually) to go over all the details of your special day. This ensures everything is perfectly planned, and we're ready to capture your memories beautifully.

We can't wait to work with you!

### HOW MANY IMAGES DO WE GET?

This is a very hard answer to give because all weddings are different. The correct answer is **however many I think is necessary.**

Clients however expect an idea of what they are paying for so I need to give you a rough estimate but as I said, all weddings are different.

Wedding A (12 coverage) Bride and Groom, no attendants , 40 guests. Couple getting dressed is small town 1.5 hour away from ceremony in the high country. Then for photos we travel to a lookout 30 minutes away and then hike 30minutes to catch the sunset. Drive back to the intimate reception dinner, no flower toss, no garter, then drive back to their villa (1.5 hrs away) where they got dressed for a night shoot.

Wedding B (12 coverage) Bride and Groom, 5 attendants each, 120 guests, getting dressed at the same resort as the ceremony and reception being held. We do the photos at the same location. The reception has flower toss, garter removal , sparkler farewell, the works.

Both these weddings are 12 hours coverage, both stunning with lots of gorgeous memories. Wedding B however will require a lot more images to cover everything that is happening. As I keep saying all weddings are different.

I say a 12 hr coverage receive 1000+ images, the reality is some get 1200 others 1800.

The Products below can be purchased from your online gallery after your wedding.

## HOW LONG DO I NEED?

As an aid in helping with the planning of your day, below is an idea of what I photograph on a full 12 hour wedding day and roughly how long you should leave. Obviously if you have selected a shorter coverage you will need to pick the part of your day that is most important to you.

All weddings are different and depending on if you are having a Bride and Groom, a Bride and Bride or a Groom and Groom times will vary depending on your needs. Most of our coverage's last for 10+hours, this should give you a rough idea of how much time to leave. The general rule is the more time you leave the more fun and relaxed your day will be.

**Preparations** ... I go to the Partner A around 3 hours before the ceremony where I spend about a 1 hour photographing details and dressing. I then go to the Partner B around 2 hours before they are due to leave for the ceremony, if there is a long drive to church please take that into consideration. If you would like lingerie shots, you need to be ready in lingerie, veil and dressing gown when I arrive. If not I recommend you do not get fully dressed before I arrive as photos of attendants helping you to dress, doing up buttons etc really enhance your coverage (and hence your memories). At this location I try to photograph you, attendants individually, you and parents, you and dog... Whatever I can. I then leave for the ceremony 15 minutes before you.

**Ceremony location** ... I will arrive at this location at least 15 minutes before the Partner B where I will photograph the Partner A, Attendants, Partner A and parents etc. (Please make sure the Partner A is at the ceremony location at least 20 minutes prior to ceremony) I then meet the Partner B at the car as they arrive, a couple of quick shots and then they are walking down the aisle. I photograph your ceremony discreetly so as not to disturb your guests or the flow of the event.

When the ceremony is over you will be left for around 5 - 10 minutes (depending on time you have left and the weather) to get kissed and confettified by your guests.

**Family photo's** ... (Allow 30 minutes)

Listed below are the general ones I do but we can always add to them. Some people love family photo's others hate them, it's up to you how many different combinations I do.

A&B + A parents, A&B + B parents, A&B + both sets of parents

A&B + B family, A&B + A family, A&B + grandparents

**Location Photography** ... (allow at least 1 ½ hours plus travel time)

Please remember the location photography is Wedding party only... I need 100% of your attention and time is generally quite limited. With location photography I generally do one main location (where we like you to bring drinks and something to eat, this often is the first time the couple has relaxed all day.) And then we do several minor locations.(arrive quickly do a dozen shots and move to the next location) The more time you leave, the more relaxed your day will be.

**Reception** ... The images that I take here are quite candid of you and your guests interacting with each other, playing games and the general feel of your reception. Please remember that a coverage is often 10 + hours and I do require a meal at the reception. I cover the reception pretty much as it happens leaving you to enjoy the event, but always happy to cater for any requests you have. The reception coverage of course includes cake cutting, speeches, garter toss, bouquet toss, night shoot, general dancing, Couples first dance, farewells (ie sparkler) if you choose to do them.

Time summary example... (for say 3pm local ceremony)

Photographer arrives at Partner A house at 12.00 noon

Photographer arrives at Partner B house at 1.00 pm

Photographer leaves at 2.40pm (presuming ceremony is 5 mins away)

Partner B arrives at church at 3.10pm (fashionably late)

Ceremony and family photos finished at 4.15 pm

Get to location at 4.30pm (take into consideration the time it takes to get wedding party into cars and travel)

Wedding party get to reception at 6.15pm (as above. Remember 1 ½ hours photography time does not include travel and getting people into cars)

Couple will generally be introduced at 7ish (when guests are seated and wedding party have freshened up.)

*Remember this is a rough guide, all weddings are different.*

I'M HAVING A PHOTOBOOTH AND I AM SUPPLING GUESTS WITH A QR CODE TO UP LOAD THEIR PHOTOS TO US. DO WE NEED A PROFESSIONAL PHOTOGRAPHER AT OUR RECEPTION?

Photo booths are great fun, guest images can be great but they produce two very different results than a professional photographer. So the answer to that is how do you want to remember your wedding?

Photo booths are great fun and will keep your guests entertained. However all the photos are basically the same, guests doing crazy things with props against a back drop. Does this show your reception? Is this how you want to remember all the hours you spent planing it?

QR codes are a great way to get your guests to send you their photos, however most guests will only send you photo's of you cutting the cake ( which you will have a million off all the same) or they will be selfies of them and their friends, not really showing you the reception.

A professional photographer is an outsider there capturing the activities and relationships unfold. These images show how I see your reception and your loved ones that are their to celebrate with you.

So how do you want to remember your reception?

### Understanding our wedding payment systems.

Because we cater to a large variety of clients on different budgets we offer 2 different payment options. I have listed them below displaying payments based on our 10 hr \$3500 package.

Option 1. Prepay fully at the time of booking and receive a bonus 2 hours coverage.

Total package price **\$3500** Std 10 hours included.

Non refundable retainer to lock in your date. **\$500**

Balance **\$3000** paid straight away upon receiving invoice.

A bonus 2 hours of coverage is added to your package giving you a total of 12 hours coverage.

Option 2. Pay off your wedding photography, keeping it affordable and making sure you stay on top of your wedding budget.

Total package price **\$3500** Std 10 hours included.

Non refundable retainer to lock in your date. **\$500**

Final payment of **\$500** due to be paid 14 days after your wedding.

The difference of **\$2500** is to be paid off by 7 days prior to your wedding.

This can be done in either 1 payment or we can break it down into monthly payments where you receive an email reminder.

These payments are flexible, you will receive notification whenever you make a payment. If you make extra payments, great. If you miss a payment the system will send you out an automated reminder, then if it is still not paid, the payment gets split across the following months.
