“Words can’t express how grateful we are for Steve. He didn’t just photograph our wedding — he became part of the day. He calmed nerves, noticed the small moments no one else saw, and captured the kind of emotion you can feel every time you look at the photos. When we received our gallery, we both cried seeing the love, joy and little in-between moments preserved so beautifully. These images are treasures we will cherish for the rest of our lives.”

— Olivia & Mark

“Great wedding photography doesn’t just show how it looked—it reminds you how it felt.”

Why Would You Book Me?

Because your wedding day isn't about recreating Pinterest trends or TikTok moments—it's about YOUR story, YOUR love, and YOUR once-in-a-lifetime memories.

Yes, I'll guide you into some beautifully composed portraits, but the magic? That happens in the in-between moments. The real, unscripted, joy-filled seconds when you're laughing so hard your stomach hurts, sneaking loving glances, or wiping away happy tears.

When you stop stressing about what looks "perfect" and start soaking in every moment, that's when we create something unforgettable.

So, if you want a photographer who captures more than just how your wedding looked— but **how it felt**— let's do this. Your love story deserves nothing less.

Wedding Photography FAQ – What Couples Ask Me Most

1. How far in advance should we book you?

I typically book 12–18 months in advance, especially for peak wedding seasons. To secure your date, a signed agreement and retainer are all that's needed — no stress.

2. How long does it take to get our photo's?

I deliver your gallery within 2 weeks — with a sneak peek within a few days, so you're not left hanging.

3. What happens if it rains or there's bad weather?

We adapt — beautifully. I've photographed in rain, fog, and golden sunshine, and know how to make magic in any light or location. I also scout indoor and backup spots so you're always covered.

4. How many images do we get?

Every wedding is unique, and the number of images delivered depends on a variety of factors. The Honest Answer? As Many as Necessary! I capture everything I believe is important and meaningful to your day. That means there's no strict cap on the number of images—you'll get everything that tells the full story of your wedding. However, I know you're looking for a ballpark figure so I will say a 10 hour coverage will get between 800 – 1000 images. Quality Over Quantity. At the end of the day, it's not about hitting a specific number but ensuring every important memory is preserved. Whether your wedding is an intimate elopement or a grand celebration, I'll deliver all the moments that matter most to you!

5. Do you help with the timeline or planning?

Yes — I'm here to make the day flow smoothly. I'll work with you to create a custom photography timeline that fits your vision, ensures we don't miss key moments, and keeps things stress-free.

6. Can we meet or chat before the wedding?

Absolutely! Whether it's at my studio, Zoom, or during your engagement session (which is complimentary with all packages), I want us to feel like friends by the time your big day arrives. Comfort = better photos.

7. What happens if you're sick or have an emergency on our wedding day?

I take your day seriously — so I have a trusted network of experienced photographers I can call on if something truly unexpected happens. That said, in 25+ years, I've never missed a wedding!

8. What if we're awkward in front of the camera?

Most of my couples say this — and then say how fun and relaxed it actually felt! I guide you naturally, give gentle direction, and capture genuine moments. You don't need to know what to do — that's my job.

9. Will you help us with posing or do you shoot candidly?

I do both! I'll gently guide you during portraits, but I also capture real, unscripted moments as they unfold — laughter, tears, hugs, and everything in between.

10. Do you photograph same-sex or multicultural weddings?

Absolutely. Love is love — and every wedding, every couple, and every story is welcome and celebrated here.

What is my style and how do I work?

My style is a mix of natural, candid storytelling with a touch of creativity. I focus on capturing genuine emotions, the in-between moments, and all the little details that make your day uniquely yours. You'll get a beautiful balance of relaxed, documentary-style images along with some gently guided portraits so you look your best without feeling posed or stiff.

On the day, I work in a calm and friendly way — blending in when needed to capture authentic moments, but stepping up to guide you during portraits so you feel comfortable and confident. My goal is to make the photography part fun and stress-free, so you can relax and just enjoy your wedding day while knowing I'm documenting it all.

I'M HAVING A PHOTO BOOTH AND I AM SUPPLYING GUESTS WITH A QR CODE TO UP LOAD THEIR PHOTOS TO US. DO WE NEED A PROFESSIONAL PHOTOGRAPHER AT OUR RECEPTION?

Photo booths are great fun, guest images can be great but they produce two very different results than a professional photographer. So the answer to that is how do you want to remember your wedding?

Stephen Jorgensen
ALL SAINTS PHOTOGRAPHY

Photo booths are great fun and will keep your guests entertained. However all the photos are basically the same, guests doing crazy things with props against a back drop. Does this show your reception? Is this how you want to remember all the hours you spent planing it?

QR codes are a great way to get your guests to send you their photos, however most guests will only send you photo's of you cutting the cake (which you will have a million off all the same) or they will be selfies of them and their friends, not really showing you the reception.

A professional photographer is an outsider there capturing the activities and relationships unfold. These images show how I see your reception and your loved ones that are their to celebrate with you.
